EDUCATION

Vellore Institute of Technology (VIT), Vellore B.Tech in Information Technology — CGPA: 8.63/10	2022–Present
Narayana Junior College, Vijayawada MPC Stream — 92.6%	2020–2022
KKR Gowtham High School, Vijayawada CBSE — 90.4%	2019–2020

TECHNICAL SKILLS

Programming Languages:	Java, C, SQL, HTML, CSS, JavaScript, Bootstrap
Frameworks & Tools:	Node.js, Express.js, React.js, jQuery, TensorFlow, Keras, OpenCV, Spring Boot
Databases:	MySQL, MongoDB
Version Control & Cloud:	AWS Cloud, Arduino

PROJECTS

- **Smart Attendance System (Full Stack + Cloud)** — Built full-stack system using React, Node.js, and MySQL (RDS); deployed frontend on AWS EC2, backend via RESTful APIs; integrated S3 for file storage.
- **TabNet-Based Income Classification** — Designed and trained 15+ ML models (XGBoost, LightGBM, CatBoost, DNN); achieved ~89% accuracy using ROC and PR curves.
- **Green Rush Game (Python + Pygame)** — Developed 2D arcade game featuring real-time inputs, procedural map generation, and scoring system.
- **Real-Time Face Emotion Recognition** — Built CNN model (TensorFlow/Keras) for facial emotion detection using webcam feed with OpenCV.
- **Drowsy Driver Detection System** — Implemented Eye Aspect Ratio (EAR) based alert mechanism using Dlib and OpenCV for real-time drowsiness detection.
- **Smart Women Protection System (IoT)** — Integrated Arduino, GPS (Neo-6M), and GSM (SIM800C) to trigger emergency SMS with live location.
- **Complaint Management System (Full Stack)** Developed a secure full-stack web application using React.js, Node.js, and MySQL for managing hostel complaints with role-based access. Implemented features like complaint tracking, escalation workflows, and tamper-proof logging using JWT and encryption.
- **Botnet and Spam Detection** Developed a machine learning-based system to classify botnet spam using preprocessing and feature extraction techniques. Evaluated model performance using metrics like accuracy, precision, recall, and confusion matrix analysis.
- **ISL detector** Developed a lightweight Indian Sign Language sentence recognition system using MediaPipe hand landmarks and a hybrid Conv-BiGRU-Transformer model with ensemble learning for efficient gesture classification.

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
AWS Machine Learning Engineer — Associate (EthanUS)

LANGUAGES

English (Professional), Telugu (Native), Hindi (Professional), Tamil (Basic), French (Basic)

LEADERSHIP & VOLUNTEERING

Student Organiser, graVITas'25 — Techno-Management Knowledge Carnival
Student Manager, Riviera'25, Riviera'26 — International Sports & Cultural Festival
Student Coordinator, graVITas'24; Student Volunteer, graVITas'23 & Riviera'24
